BAGNAIA MONSTER REPLICA 2024
MATT
ECE CODE K6SX0013

Disegnato, progettato e messo a punto in Italia con l'aiuto degli strumenti digitali più avanzati, S1-XR GP è stato sviluppato collaborando con i piloti Suomy per massimizzare le prestazioni e portarle ad un livello superiore.

- Design aerodinamico unico
- Stupefacente campo visivo
- Calotta in Tricarboco Composite in 3 taglie
- 5 efficienti prese d'aria
- Efficienti estrattori d'aria

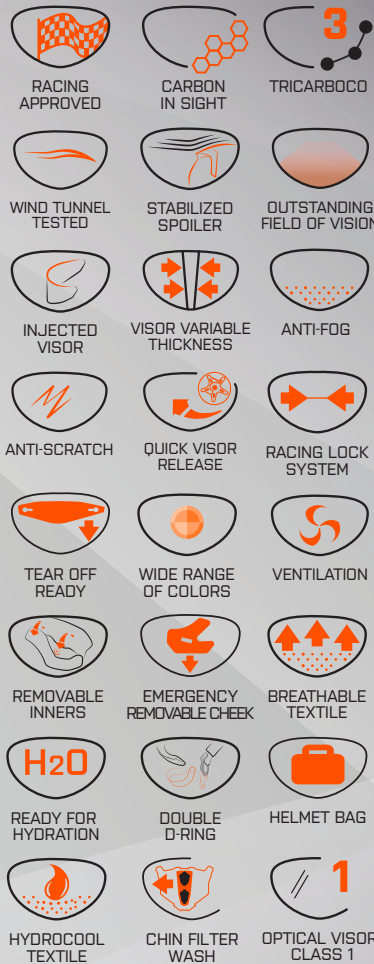

Designed and developed in Italy by the most advanced digital tools, S1-XR GP has undergone rigorous testing by Suomy riders to ensure its top-of-the-line performance.

- Unique Aerodynamics Design
- Stunning field of vision
- Three sizes Tricarboco Composite shell
- Five effective air intakes
- Powerful air extraction

INFO TECNICHE TECHNICAL INFO

IT I piloti più blasonati delle varie categorie contribuiscono a sviluppare e ottimizzare le prestazioni dei caschi Suomy grazie alla presenza dei tecnici del reparto racing. Questa interazione permette uno sviluppo continuo delle performances del casco nelle condizioni più estreme.

EN The most popular riders, in different categories, help to develop and optimize the performance of Suomy helmets thanks to the technicians of the racing department. This interaction allows a continuous development of the helmet performances in the most critical conditions.

DE Die berühmtesten Fahrer der verschiedenen Kategorien helfen bei der Entwicklung und Optimierung der Leistung von Suomy Helmen, dank der Anwesenheit von technischen Fachpersonal aus dem Bereich Rennsport. Diese Interaktion ermöglicht eine kontinuierliche Entwicklung der Helmeleistungen unter extremen Bedingungen.

FR Les plus grands pilotes de différentes catégories nous permettent de développer et d'optimiser la performance des casques Suomy, grâce aux techniciens de notre département Courses automobiles. Cette collaboration permet un développement continu des performances du casque dans les conditions les plus difficiles.

ES Los pilotos más prestigiosos de las diferentes categorías contribuyen a desarrollar y optimizar las prestaciones de los cascos Suomy gracias a la participación de los técnicos del departamento de carreras. Esta interacción permite un desarrollo continuo de los rendimientos del casco en las condiciones de máxima dificultad.

IT Calotta realizzata in materiale TRICARBOCO, tessuto mix di carbonio, fibre aramidiche e fibra di vetro, con varie grammature/carichi di rottura, legati con resina che permette di ottenere una calotta più leggera e allo stesso tempo ancora più rigida, protettiva e resistente agli urti.

EN The outer shell is made of TRICARBOCO fiber, a mixture of carbon, aramid fibers and fiberglass with different weights/breaking loads linked up. Loads, linked up with aramid resins that ensure a lighter, harder, more safety and impact resistant shell.

DE Helmkappe realisiert aus TRICARBOCO Material, einem Mischgewebe aus Karbon, Aramidfasern und Glasfaser, mit diversen Gewichtungen/Bruchbelastungen und mit Harz gebunden, was die Helmkappe sowohl leichter als auch gleichzeitig noch starrer, schützender und haltbarer macht bei Schlägeinwirkungen.

FR Calotte matériau TRICARBOCO, tissu mélange de carbon, fibres d'aramide et fibre de verre, aux différents grammages/charges de rupture, liés à la résine qui permet de réaliser une calotte plus légère et plus rigide au même temps, protective et résistante aux chocs.

ES Casquete realizado en material TRICARBOCO, tejido obtenido por mezcla de fibras de aramida, carbono y fibra de vidrio con diferentes gramajes y cargas de rotura unidos con resina, obteniéndose un casquete más ligero y, al mismo tiempo, más rígido, protector y resistente a los golpes.

IT Calotta realizzata in pregevole CARBONIO a vista, fibre aramidiche e fibra di vetro con varie grammature/carichi di rottura, legati con resina che permette di ottenere una calotta ancor più leggera e allo stesso tempo più rigida, protettiva e resistente agli urti.

EN The shell is made of fine CARBON (in sight), aramid fibers and fiberglass with different weights/ tensile strength linked up with resins that ensures a lighter shell but, at the same time, harder more protective and impact resistant.

DE Die Innenschale besteht aus biegsamem und sichtbarem KOHLENSTOFF, Aramidfasern und Glasfaser mit verschiedener Gewichtung/ Bruchlasten, die mit Harz verbunden sind, um ein noch leichteres und zugleich beständiges Gehäuse zu schaffen, die schützt und schlagfest ist.

FR Casque en fibres de CARBONE composite haute qualité et de fibres d'aramide incluses dans une couche de résine, avec différentes poids / charges de rupture, pour un casque léger, encore plus rigide, protecteur et résistant aux chocs.

ES Casquete realizado en CARBONO especial a la vista, fibras de aramida y fibra con diferentes pesos/cargas de rotura, unidos con resina especial que permite obtener un casquete aún más ligero y, simultáneamente, más rígido, protector y resistente a los golpes.

IT Le forme della calotta e delle varie appendici aerodinamiche sono ottimizzate grazie a intense sessioni in galleria del vento. Le performances aerodinamiche risultanti permettono il miglior comfort di marcia a tutte le velocità.

EN The shell shapes and related aerodynamic spoilers are optimized due to intensive sessions in the wind tunnel. Aerodynamic performances allow the best comfort at all speed.

DE Die Formen des Gehäuses und des verschiedenen aerodynamischen Zubehörs sind dank dem Test im Windkanal stark optimiert worden. Die daraus resultierende aerodynamische Leistung ermöglicht den besten Fahrkomfort bei allen Geschwindigkeiten.

FR Les formes du casque et des différents accessoires aérodynamiques sont optimisées lors de sessions de test en soufflerie. Les performances aérodynamiques qui en résultent offre un meilleur confort à toutes les vitesses.

ES Las formas del casquete y de los elementos aerodinámicos son optimizados gracias a intensas sesiones en túnel del viento. Las cualidades aerodinámicas obtenidas garantizan mayor confort durante la marcha a cualquier velocidad.

IT Calotta in RESINA RINFORZATA TERMO-PLASTICA stampata ad iniezione.

EN Outer shell in injection-molded THERMOPLASTIC REINFORCED RESIN.

DE Helmkappe in VERSTÄRKTEM THERMOPLAST HARZ - spritzgegossen.

FR Calotte en RÉSINE RENFORCÉE THERMOPLASTIQUE moulée par injection.

ES Casquete en RESINA REFORZADA TERMOPLÁSTICA estampada por inyección.

IT Le appendici aerodinamiche sono frutto di approfonditi studi aerodinamici attraverso software dedicati i cui esiti sono testati in galleria del vento. Il risultato è una eccezionale penetrazione aerodinamica e una straordinaria stabilità alle varie velocità.

EN Aerodynamics spoilers are the result of in-depth aerodynamics studies through dedicated software whose outcomes are tested in the wind tunnel. The result is an exceptional aerodynamic penetration and extraordinary stability at various speeds.

DE Aerodynamisches Zubehör ist das Ergebnis umfangreicher aerodynamischer Studien durch spezielle Software, deren Ergebnisse im Windkanal getestet wurden. Das Ergebnis ist eine außergewöhnliche aerodynamische Durchdringung und außergewöhnliche Stabilität bei verschiedenen Geschwindigkeiten.

FR Les accessoires aérodynamiques sont le résultat d'études poussées en aérodynamique avec un logiciel dédié dont les résultats sont testés en soufflerie. Le résultat est une pénétration aérodynamique exceptionnelle et une stabilité extraordinaire à différentes vitesses.

ES Los elementos aerodinámicos son el resultado de profundizados estudios aerodinámicos ejecutados mediante softwares dedicados, cuyos resultados son sometidos a pruebas en el túnel del viento. El resultado es una excepcional penetración aerodinámica y una extraordinaria estabilidad a todas las velocidades.

IT Il casco dispone di un campo visivo da riferimento, sia periferico che verticale.

EN The helmet has an outstanding field of vision, both peripheral and vertical.

DE Der Helm verfügt sowohl über ein breites horizontales als auch vertikales Sichtfeld.

FR Le casque a un champ de vision visuel, à la fois périphérique et vertical.

ES El casco tiene un campo de referencia visual, tanto periférico como vertical.

IT I campi di visibilità verticali e periferici sono aspetti fondamentali nella guida su strada e in pista. L'ampia apertura del campo visivo permette una guida più sicura e performante.

EN Vertical and peripheral visibility fields are primary aspects while riding in road and track. The wide opening of the visual field allows a safer and more performing ride.

DE Vertikale und periphere Sichtfelder sind Schlüsselfaktoren bei der Fahrt auf der Straße oder Piste. Die breite Öffnung des Sichtfeldes ermöglicht ein sichereres und leistungstärkeres Fahren.

FR Les champs de vision verticale et périphérique sont des aspects fondamentaux de la conduite de la route et piste. La grande largeur du champ de vision permet une conduite plus sûre et plus performante.

ES Los campos de visibilidad verticales y periféricos son aspectos fundamentales para la conducción en carretera y en pista. La amplia apertura del campo visual garantiza una conducción más segura y de mayores rendimientos.

IT La visiera è tridimensionale e otticamente corretta, stampata in PC ottico, trattata con lacche anti-scratch e fornisce protezione dai raggi UV.

EN The visor is three-dimensional, optically accurate, printed in optic PC, treated with scratch-proof and UV blocking material.

DE Das Visier ist dreidimensional und optisch korrekt eingestellt, in PC gedruckt, mit Anti-Scratch Lackenbehandelt und bietet vollen UV-Schutz.

FR La visière est tridimensionnelle et correcte du point de vue optique, moulée à l'aide d'un ordinateur optique, traitée avec des vernis anti-rayures et fournit une protection contre le rayonnement UV.

ES La visera es tridimensional y ópticamente correcta, estampada en PC óptico y tratada con lacas antirrasguño, asegura también protección contra los rayos UV.

IT Le geometrie della visiera sono accuratamente studiate attraverso avanzati software ottici. La visiera ha uno spessore variabile al fine di ottenere la classe ottica 1, la migliore performance raggiungibile per una lente.

EN Visor geometries are carefully studied and designed through advanced optical software. The visor has a variable thickness in order to obtain the optical class 1, the best performance achievable for lens.

DE Visiergeometrien werden sorgfältig durch fortgeschrittene optische Software untersucht. Das Visier hat eine variable Dicke, um die optische Klasse 1 zu erhalten, die beste Leistung, die für eine Linse erreichbar ist.

FR Les formes de la visière sont soigneusement étudiées par logiciel optique de pointe. La visière présente une épaisseur variable, ce qui lui confère la classe optique 1, la meilleure performance possible pour une lentille.

ES Las geometrias de la visera han sido cuidadosamente estudiadas mediante sofisticados softwares ópticos. La visera presenta un espesor variable a fin de obtener la clase óptica 1, el mayor rendimiento posible para una lente.

IT La visiera dispone di uno spessore variabile per raggiungere la classe ottica 1 e al contempo rende più solida la visiera stessa.

EN The visor has a variable thickness to reach the optical class 1 and at the same time makes the visor more solid.

DE Das Visier hat eine variable Dicke, um die optische Klasse 1 zu erreichen und gleichzeitig das Visier fester zu machen.

FR La visière a une épaisseur variable pour atteindre la classe optique 1 tout en la rendant plus solide.

ES La visera tiene un grosor variable para alcanzar la clase óptica 1 y al mismo tiempo hace que la visera sea más sólida.

IT La visiera è trattata con i più performanti processi anti-fog che garantiscono le migliori prestazioni anche nelle condizioni più critiche.

EN Visor is treated with the most performing anti-fog processes to guarantee the best performance even in the most critical conditions.

DE Das Visier wird mit den leistungsstärksten Antibeschlag-Prozessen behandelt, die auch unter den kritischsten Bedingungen die beste Leistung garantieren.

FR La visière est traitée par des procédés antibuée ultra efficaces qui garantissent une performance optimale, même dans les conditions les plus difficiles.

ES La visera es sometida a varios procedimientos avanzados antiniebla que garantizan las mayores prestaciones incluso en las condiciones más críticas.

IT La pratica lente interna Max Vision permette un'efficiente protezione anti fog estesa e di conseguenza un ampio campo visivo anche nelle condizioni più critiche.

EN The practical internal Maxi Vision lens provides an effective and wide anti-fog protection and, therefore, a wide vision field in the most critical conditions.

DE Die praktischen Innenlinsen Max Vision bieten einen effektiven Antibeschlagschutz und damit ein breites Sichtfeld auch unter den kritischsten Bedingungen.

FR La lentille intérieure Max Vision, très pratique, offre une protection antibuée efficace et, par conséquent, un champ visuel large, même dans les conditions les plus difficiles.

ES El práctico lente interno Max Vision garantiza eficiente protección antiniebla extendida, ofreciendo un amplio campo visual incluso en las condiciones más críticas.

IT La visiera è trattata con i più avanzati processi antigraffio che ne proteggono efficacemente la superficie.

EN Visor is treated with the most performing anti-scratch processes which effectively protect the surface.

DE Das Visier wird mit den modernsten kratzfesten Prozessen behandelt, die die Oberfläche effektiv schützen.

FR La visière est traitée par des procédés anti-éraflures ultra efficaces qui garantissent la protection de la surface de la visière.

ES La visera es tratada con los más avanzados procedimientos antiarañazos que protegen eficazmente su superficie.

IT Quick visor release: il meccanismo è studiato accuratamente in ogni dettaglio per avere un solido assemblaggio con la visiera e un facile sistema di rimozione della stessa senza l'utilizzo di attrezzi.

EN Quick visor release: The mechanism is designed in every detail for a solid assembly with the visor and an easy removal system without the use of tools.

DE Der Mechanismus wurde bis ins kleinste Detail studiert, um eine solide Montage mit dem Visier und eine einfache Entfernung ohne den Einsatz von Werkzeugen zu ermöglichen.

FR Ce mécanisme est soigneusement étudié dans chaque détail pour un assemblage solide avec la visière et un système de retrait facile de celle-ci, sans outil.

ES El mecanismo ha sido cuidadosamente estudiado en cada uno de sus detalles a fin de obtener un sólido ensamblaje con la visera y un sistema de remoción facilitado de la visera misma, que no requiere uso de herramientas.

IT Il casco è dotato di sistema di chiusura della visiera. Questo sistema garantisce maggiore stabilità alla visiera.

EN The helmet is equipped with a visor lock system. This system guarantees a better stability to the visor.

DE Der Helm ist mit einem Visiersverschluss ausgestattet. Dieses System bietet eine höhere Visierstabilität.

FR Le casque est équipé d'un système de fermeture de la visière. Ce système garantit une plus grande stabilité à la visière.

ES El casco está equipado con un sistema de cierre de visera. Este sistema garantiza mayor estabilidad a la visera.

IT Il casco è dotato di predisposizione per lenti a strappo.

EN The helmet is tear-off lenses ready.

DE Der Helm ist für Abreißfolie vorbereitet.

FR Le casque a une prédisposition pour les tear off.

ES El casco tiene una predisposición para lentes desprendibles.

IT Ampia gamma colori.

EN Available in a variety of colors.

DE Große Farbauswahl.

FR Large gamme de coloris.

ES Amplia gama de colores.

IT Visierino interno parasole facilmente azionabile dall'esterno che svolge la funzione di occhiale da sole.

EN Internal visor that can be operated from the outside and functions as sunglasses.

DE Leicht von außen zu bedienende interne Sonnenblende mit der Funktion einer Sonnenbrille.

FR Petite visière interne pare-soleil, qui peut être facilement mise en service de l'extérieur, jouant le rôle de lunettes de soleil.

ES Pantalla solar interna, fácilmente accionable desde afuera, que desempeña función de gafas de sol.

IT Le forme, il posizionamento, l'area di ingresso delle prese aria, le canalizzazioni della calotta interna e i tessuti di conforto sono studiati per ottenere la massima efficienza nella dissipazione del calore all'interno del casco.

EN Shapes, positions, air intakes positioning, canalization of the inner shell, comfort liners are developed to obtain the maximum efficiency in heat dissipation inside the helmet.

DE Die Form, die Positionierung, die Lüftungsöffnungen, die Kanäle der Innenschale und die komfortablen Polster wurden entwickelt, um eine maximale Effizienz bei der Wärmeableitung im Helm zu erreichen.

FR Les formes, le positionnement, la zone d'entrée des prises air, le passage de l'air dans la calotte intérieure ainsi que le matériau intérieur sont étudiés pour obtenir une dissipation optimale de la chaleur à l'intérieur du casque.

ES Las formas, el posicionamiento, el área de entrada de las tomas de aire, las canalizaciones del casquete interno y los tejidos confortables utilizados han sido estudiados para obtener máxima eficiencia de disipación del calor en el interior del casco.

IT Guanciali e calotta interna completamente removibili e lavabili, in diversi spessori per una completa personalizzazione del prodotto finale. Gli interni (guanciali e calotta interna) sono realizzati in pregiato tessuto che assorbe il sudore.

EN Cheek pads and internal shell are completely removable and washable. They are made with prestigious sweat-absorbing materials largely customizable.

DE Die Auspolsterungen und die interne Helmkappe sind komplett herausnehm- und waschbar und in verschiedenen Stärken verfügbar für eine vollständige Anpassung des Endproduktes. Die Interna (Auspolsterungen und interne Helmkappe) sind aus einem wertvollen Gewebematerial realisiert, welches den Schweiß absorbiert.

FR Mousses de joues et coiffe interne complètement amovibles et lavables, disponibles en plusieurs épaisseurs pour une personnalisation totale du produit final. Les intérieurs (mousses de joues et coiffe interne) sont réalisés en tissu prestigieux qui absorbe le bruit.

ES Almohadillas y casquete interno completamente desmontables y lavables, en diferentes espesores para asegurar completa personalización del producto final. Las partes internas (casquete interno y almohadillas) son realizadas en tela fina que absorbe el sudor.

IT Predisposizione per occhiali

EN Ready for glasses

DE Geeignet für Brillenträger

FR Prédisposition aux lunettes

ES Predisposición para gafas

IT Frontino parasole removibile studiato per avere un'ottima penetrazione aerodinamica.

EN Removable peak designed to have an optimal aero-dynamic penetration.

DE Das auf eine optimale Aerodynamik ausgelegte UV-Visier ist abnehmbar.

FR Pare-soleil amovible conçu pour obtenir une parfaite pénétration aérodynamique.

ES Parte frontal para el sol desmontable, estudiada para alcanzar óptima penetración aerodinámica.

IT Frontino regolabile con ampia escursione.

EN Adjustable peak with a wide range of motion.

DE Verstellbares Frontvisier mit breiter Exkursion.

FR Pare-soleil réglable avec large amplitude.

ES Visera frontal regulable con amplia excursión.

IT Estensione removibile del frontino
EN Removable peak extension
DE Abnehmbare Visierverlängerung
FR Extension de pare-soleil amovible
ES Extensión de la visera extraíble

IT Paranaso extra
EN Extra nose protector
DE Zusätzlicher Schutz für die Nase
FR Protection nasale supplémentaire
ES Protección nasal adicional

IT Sistema di lavaggio filtro mentoniera
EN Chin filter wash system
DE Waschsystem des Kinnschutzfilters
FR Système de lavage du filtre de protection mentonnière
ES Sistema de lavado del filtro de protección del mentón

IT Il casco è dotato di guanciali con sistema di rimozione rapida. Le due pratiche linguette segnaletiche poste alle estremità anteriori dei guanciali permettono la rimozione degli stessi la conseguente estrazione del casco da parte del soccorritore in caso di incidente.
EN The helmet is equipped with cheek pads with a rapid removal system. The two practical red stripes placed at the front ends of the cheek allow their removal and the consequent removal of the helmet by the rescuer in the event of an accident.
DE Der Helm ist mit schnellen herausnehmbaren Wangenpolster ausgestattet.
Die zwei bequemen Bänder, die sich in den vorderen Teil der Wangenpolster befinden, ermöglichen eine schnelle und einfache Entfernung der Wangenpolster und des Helmes im Fall vom Sturz.
FR Le casque est équipé de coussinets de joue avec un système de retrait rapide. Les deux pratiques ongles rouges placés aux extrémités avant des coussins permettent leur retrait et l'extraction du casque par le secouriste en cas d'accident.
ES El casco está equipado con un sistema de almohadillas de extracción rápida. Las dos lenguetas señalizadas en los extremos frontales de las almohadillas permiten la extracción de las mismas y la consiguiente extracción del casco por parte de la persona que preste auxilio en caso de accidente.

IT Gli interni sono in materiale traspirante per la facile dissipazione del sudore.
EN The inners are made of breathable materials for an easy sweat dissipation.
DE Die Innenausstattung besteht aus atmungsaktiven Materialien für eine schnelle Schweißableitung.
FR Les intérieurs sont en matériaux respirants pour une dissipation facile de la transpiration.
ES Los interiores son de materiales transpirables para una fácil disipación del sudor.

IT Il casco è predisposto per il sistema di idratazione.
EN The helmet is prepared for the hydration system.
DE Der Helm ist für das Trinksystem vorbereitet.
FR Le casque est préparé pour le système d'hydratation.
ES El casco está preparado para el sistema de hidratación.

IT Il sistema di ritenzione ad anelli doppio D assicura stabilità, sicurezza e robustezza. Il cinturino è provvisto di anelli DOUBLE D-RING in lega leggera.
EN The DOUBLE D-RING retention system ensures stability, safety and strength. The strap features DOUBLE D-RINGs in light alloy.
DE Das Rückhaltesystem mit Doppel-DOUBLE D-RINGen gewährleistet Stabilität, Sicherheit und Widerstandsfähigkeit. Der Riemen besitzt DOUBLE D-RINGe in einer Leichtmetalllegierung.
FR Le dispositif de retenue à manille double D assure stabilité, sécurité et robustesse. La bride est doué de manilles D- ring en alliage léger.
ES El sistema de retención de anillos doble D asegura estabilidad, seguridad y solidez; la correa está provvista de anillos DOUBLE D-RING en aluminio ligero.

IT Guancialed predisposto per auricolari
EN Headphones cheek pad ready
DE Wangenpolster vorbereitet für Kopfhörer
FR Mousse de joue prédisposée pour les écouteurs
ES Almohadilla preparada para auriculares

IT Sistema di ritenzione micrometrico a sgancio rapido: semplice e robusto.
EN Micrometric retention system with rapid release: simple and strong.
DE Mikrometrisches Rückhaltesystem mit Schnellverschluss: einfach und robust.
FR Dispositif de retenue micrométrique à ouverture rapide: simple et robuste.
ES Sistema de retención micrométrico de desenganche rápido: simple y robusto.

IT Il casco dispone di una pratica ed elegante borsa porta casco.
EN The helmet has a practical and elegant helmet bag.
DE Der Helm verfügt über eine praktische und elegante Helmtasche.
FR Le casque a un sac à casque pratique et élégant.
ES El casco tiene una práctica y elegante bolsa de casco.

IT Tessuto bielastico hydrocool con fibre specifiche che offrono le seguenti caratteristiche:
• deflusso rapido dell'umidità corporea
• mantenimento della temperatura ottimale
• tessuto leggero, soffice e traspirante
EN Precious fabric with specific fibers that offers the following features:
• Easy outflow of body moisture
• Keep the correct temperature
• Light fabric, soft and breathable
DE Kostbarer Stoff mit spezifischen Fasern, die bietet folgende Funktionen:
• Leichtes Abfließen der Körperfeuchtigkeit
• Halten Sie die richtige Temperatur ein
• Leichter Stoff, weich und atmungsaktiv
FR Tissu précieux avec des fibres spécifiques qui offre les fonctionnalités suivantes :
• Évacuation facile de l'humidité corporelle
• Gardez la bonne température
• Tissu léger, doux et respirant
ES Preciosa tela con fibras específicas que ofrece las siguientes características:
• Fácil salida de la humedad corporal
• Mantenga la temperatura correcta
• Tejido ligero, suave y transpirable

IT Mentoniera non protettiva in ADT removibile.
EN Not protective removable ADT Chinguard.
DE Nicht schützender, herausabnehmbarer ADT-Kinnschutz.
FR Mentonnière ADT amovible non protectrice.
ES Mentonera extraíble ADT sin protección.

SUOMY Motosport Srl può modificare i prodotti rappresentati in questo catalogo senza l'obbligo di preavviso. Foto, colori e caratteristiche devono essere considerati a titolo esemplificativo e possono variare in fase di stampa. I prodotti Suomy sono rivolti esclusivamente al motociclista e pertanto l'azienda non è ritenuta responsabile per l'utilizzo dei prodotti in modo non conforme alle istruzioni o all'uso tipico. Suomy Motosport Srl raccomanda l'uso dei caschi omologati e consiglia sempre di verificare che l'omologazione indicata sullo stesso sia conforme alle normative della Nazione d'utilizzo.

SUOMY Motosport Srl reserves the right to modify the products in this catalogue without prior notice. The photos, colours and characteristics are provided only by way of example and may vary in print stage. Suomy products are designed exclusively for motorcyclists, therefore the firm declines any liability for improper use or non-compliance with the manufacturer's instructions. Suomy Motosport Srl recommends to use homologated helmets and always verify availability/possibility of using them in the countries where they are sold.
